

MUNYON'S GUIDE TO HEALTH

Your Druggist Will Hand It to You for the Asking.

IT MAY SAVE YOUR LIFE

Tells You the Symptoms of All Common Diseases--Tells You Just What to Do for Each--Shows You How to Be Your Own Doctor.

Thousands of dollars have been spent by Professor Munyon in the preparation of a people's handy health manual. One that could be understood by anybody that could read--that would render doctors, visits and doctors bills absolutely unnecessary, and today it is as near perfect as scientific research, money and the most advanced medical knowledge can make it.

MAY OUST THE CLUB.

The Democrats Must Have Rooms for Mayor O'Neill.

The Democratic members of the council are endeavoring to secure an office for Mayor O'Neill and their efforts may end in the Lackawanna club being asked to move out, so that the rooms now occupied by it may be given to the mayor.

These rooms seem to be the only ones available in the city building, but as the club pays a good price for them some of the councilmen will make a strong fight against asking the club to leave.

The rooms now occupied by the city library were formerly meant to be for the mayor but there is no possibility of it being used for such purpose now.

Another plan is to have the rooms of Alderman Jones and Attorney Butler made into one and given to the mayor, but which ever plan does finally pass, it will end in some one being ousted from the building.

DETECTIVE IS HUNTING HIM.

Rumors Concerning Ex-Collector McKee Seem to Have Foundation.

A detective arrived in this city yesterday morning, who, it is said, is endeavoring to find Robert McKee, collector of Armour & Co., who disappeared on Monday last.

It is rumored that McKee is short in his account, but the most serious reports, as the firm requires weekly reports from its branches. The amount is said to be about \$300, but as the affair has been kept very secret, little is known concerning the truth.

This sum could easily have been made up by McKee and there is a great deal of surprise at his disappearance. During Mr. McKee's stay in this city he made many friends with whom he was a prime favorite. It is his hope that these reports are greatly exaggerated, if not wholly false.

JERMYN AND MAYFIELD

The following is from the Carbondale Leader: "Representative Reynolds has introduced in the legislature a bill repealing any act regulating the manner of increasing the indebtedness of municipalities; also, amending the act of 1874 relating to the increase of indebtedness of municipalities. This is presumably done at the instance of the people of Jermyrn who have been balked in their efforts to construct municipal water works by the law which limits the amount of indebtedness which the borough can contract. If Mr. Reynolds' bill succeeds in passing there will be great rejoicing in our neighboring borough."

Some of our business men are strongly advocating the question of forming a stock company for the purpose of securing a local telephone system for this and surrounding towns. The stock will all be owned and controlled by the subscribers of shares. The company will connect with the "long distance" at this place, and will also establish lines to La Plume, Lake Wilnola by way of the "Mineral Springs," and to Bardwell, where it will connect with the Tunkhannock line, thereby connecting this place with the county seat, Lake Carey, Mehopany and towns up the river. This seems to be one of the missing links that belong to the chain of enterprise and improvement, and if successfully established will fill a long felt want, at the same time adding another chapter to the already famous history of our pretty little hamlet as a "town of modern improvements." Give us an electric light plant so that we can see our "spiritualistic man in black" as well by lamp-light as we do by daylight, so that we can light up some of the dark corners of the earth, such as Dalton and Nicholson, give us the continuation of the electric road from Rozorville via Ballely Hollow to our town, and as far as modern improvements goes to make up in what we lack in the way of the old town, we will compare notes with many of our larger towns that don't have the title "city."

The Methodist Episcopal church has purchased from Jeweler E. L. Watkins a very handsome thirty-day clock for the main altar.
